# Kitchen Brochure 2023

[www.skokitchens.com](http://www.skokitchens.com)

# About Our Company

SKO started in 2004 as a trade-only manufacturer on Carlisle St East in Sheffield. Only a year later, we opened our first retail showroom. Since then, we haven't looked back. Because we manufacture high quality, bespoke kitchen cabinets in volume, we can sell at flat-pack / DIY store prices, this is the secret of our success. Put this together with excellent customer service, amazing choice and expert designers, and you can see why more and more people choose SKO every year.

Since 2004, we haven't stopped growing. We now have a 40,000 sq ft head office & distribution centre located in Hillsborough, Sheffield, and a 15,000 sq ft factory, also in Sheffield. SKO employ over 60 people locally. We have 2 showrooms: Hillsborough Trade Point and Elland Road in Leeds. We also have an extensive trade counter at our distribution centre in Hillsborough, with over 60 kitchen and bedroom displays within our sites.

We pride ourselves on our no nonsense sales policy. We guarantee transparent pricing and good honest advice. Our design team will give you our best possible price the first time round with no high pressure sales tactics, or unwanted follow up calls.

When buying a kitchen from SKO, you are not only getting excellent value, amazing choice and unbeatable quality, but you are also helping to support manufacturing and local jobs in the UK.

We would like to thank you for reading our brochure, and hope you enjoy your experience as one of our valued customers.

## Retail Showrooms

(0113) 487 4444

## Distribution & Factory

### Head Office & Trade Counter

Rawson Spring Way,  
Hillsborough,  
Sheffield,  
S6 1PG  
(0114) 399 5537

### Factory

6 Julian Road  
Sheffield  
S9 1FZ

# How to place your order!

## Step 1, Home survey.

The easiest and most convenient starting point is to book a home survey with one of our expert design team. Our designer will measure your room and take a design brief from you. This gives you an opportunity to discuss your ideas and what you are hoping to achieve with our designer. Our designer can also offer suggestions and other options at the early stages to help you get the most out of your new kitchen. If you already have a layout you are happy with, or feel you don't need our design service, you can skip straight to the next step of our sales process.

## Step 2, Plan & design

Your designer will take your room sizes and information away and put together a design based on your needs. We then invite you to our showroom to go present and finalise your design. During your showroom visit you will get the opportunity to choose layout and colour options using our extensive displays for further ideas and inspiration. Once your design is finalised it's time to go to the next stage of your new kitchen journey.

## Step 3, Itemised quote

Now you have chosen your layout, colour schemes, appliance options and other accessories, it's time to put your quotation together. Our designer will offer a fully itemised quote so you know the full costs involved. This is typically done during your design presentation. This gives you the opportunity to take your quote away and consider anything you haven't fully decided on prior to making any final decisions.

## Step 4, Place your order

Our order stage is also by appointment with your designer. At this stage you can make any final changes to your quote prior to us putting your new kitchen into production. Our designer will go through your chosen design and layout, ensuring you fully understand each item that makes up part of your new kitchen. Once you're happy with your chosen kitchen, our designer will arrange a delivery date for your new kitchen to be delivered to your home.

# Our Cabinets

*“Our made to measure cabinets can be manufactured in any one of 30 colours. Where possible all our cabinets feature a solid 18mm back panel adding rigidity to the units. All our high quality German drawers and components compliment our superior quality cabinets.”*

Our BESPOKE cabinets are made to order in your choice of 30 cabinet colours. You can choose your cabinet colour to either match or contrast against your chosen door style. Cabinets can be made to non-standard configurations to suit your requirements. All our cabinets come pre assembled, with the exception of L—shape corner base units and large wardrobes, as they will not fit through doorways.

All our cabinets are supplied fully assembled, and are made using EGGER furniture board.

Our cabinets are hand made in our factory in Sheffield. All our cabinets are bespoke and made to order in your choice of 30 colours, to either match, or contrast, your chosen door style.

18mm rear panel dowelled & machined into the cabinet. This makes our cabinets solid and keeps them square, keeping your kitchen looking brand new for much longer.

52mm Service Recess to allow for plumbing & electrics.

Durable 1mm ABS edges colour matched to your chosen cabinet colour.

Hettich Arcitech drawer boxes with full extension 40KG runners. These very strong German drawers are soft close as standard, with glass sides on all pan height drawers.

All our cabinets come complete with german HETTICH quick fit, clip on hinges, with soft close as standard.

# CABINET COLOURS

All our made to order cabinets can be manufactured using any of the 30 colours below. You can choose the colour best matches, or contrasts against any of our door ranges.

# **Integro Cabinets**

Our INTEGRO cabinets have an aluminium handle profile built into them. We manufacture your cabinets in a choice of 30 colours. Custom sized cabinets are not available in INTEGRO, this is due to the handle profile limiting what we can, and can't do with the cabinets. **Look out for Integro cabinets on selected ranges.**

### AVAILABLE IN 3 FINISHES

WALL CABINET PROFILE ALUMINIUM ONLY

Aluminium

Graphite

Copper

### WALL UNIT PROFILE

Used for wall cabinet doors.

### TOP PROFILE

Used for doors and top drawers.

### MID PROFILE

Used for mid and bottom drawers.

### VERTICAL PROFILE INTERMEDIATE

Used between two tall units

### SPACER FOR APPLIANCE

Used with Vertical Profile

### EXTERNAL CORNER JOINT - TOP

Used to create a seamless design, combine with external corner post.

INTEGRO cabinets are often described as “GERMAN KITCHENS” by many of our competitors.

All our INTEGRO cabinets are manufactured to exactly the same high standards as our usual cabinets, with the exception of allowing for the integrated handle profile to be added.

If you look closely and compare our cabinets to other suppliers, in most cases you will find our quality far superior to the kitchens that are described as “GERMAN” by our competitors.

We are confident our INTEGRO kitchens are priced much more competitively than other suppliers offering true handle less ranges which means our customers can benefit from a higher quality kitchen at a better price.

Selected ranges.*

# Piatto Plus Ashwood

**INTEGRO**  
Cabinets  
available  
in this range

 **2 week lead time.**  
Other colour  
options available.

Piatto Plus is a slab style door manufactured using high grade laminated board, edged using a durable ABS colour matched edging.

The ashwood effect gives the look and feel of a painted wood, but is much more resistant to wear and tear than real painted wood, keeping your kitchen looking new for longer.

All our Piatto doors are edged using a PUR gluing system, making this range the most hardwearing and moisture resistant range we offer, and is available in made to measure sizes.

# Vivo Gloss

INTEGRO  
Cabinets  
available  
in this range

2 week lead time.  
Other colour  
options available.

Vivo Gloss & Matte are an MDF flat slab style door painted in the colours shown below. The paint is very similar to the type used within the automotive industry. A lacquer is applied to achieve either a gloss or matte finish.

The gloss and matte effect gives a modern contemporary feel to any kitchen. Because this range is painted it offers much more choice and flexibility around matching accessories, especially curved doors and other trims.
