Internal Drawers

HETTICH Light Tower is a set of 5 soft closing drawers that can be installed into most cabinets. The set includes 1 x 86mm high and 4 x 186mm high drawer boxes complete with soft close runners. The lights are powered by a removable lithium rechargeable battery.

When installing light tower into cabinets with hinged doors 165 degree hinges are required and care must be taken not to hinge cabinets next to walls or other obstructions preventing the door opening enough to clear the cabinet internals.

Our Cabinets

“Our made to measure cabinets can be manufactured in over 30 colours. Where possible all our cabinets feature a solid 18mm back panel adding rigidity to the units. Our high quality German drawers and components compliment our superior quality cabinets.”

Our BESPOKE cabinets are made to order in your choice of 30 cabinet colours. You can choose your cabinet colour to either match or contrast against your chosen door style. Cabinets can be made to non-standard configurations to suit your requirements. All our cabinets come pre assembled, with the exception of L—shape corner base units and large wardrobes, as they will not fit through doorways.

All our cabinets are supplied fully assembled, and are made using EGGER furniture board.

Our cabinets are hand made in our factory in Sheffield. All our cabinets are bespoke and made to order in your choice of 30 colours, to either match, or contrast, your chosen door style.

18mm rear panel dowelled & machined into the cabinet. This makes our cabinets solid and keeps them square, keeping your kitchen looking brand new for much longer.

52mm Service Recess to allow for plumbing & electrics.

Hettich Arcitech drawer boxes with full extension 40KG runners. These very strong German drawers are soft close as standard, with glass sides on all pan height drawers.

Durable 1mm ABS edges colour matched to your chosen cabinet colour.

All our cabinets come complete with german HETTICH quick fit, clip on hinges, with soft close as standard.

Look for this icon in Selected ranges.

INTEGRO Cabinets available in this range

Integro True Handleless Cabinets

Our INTEGRO range are true handle less cabinets which have a handle profile built into the cabinets during the installation process. These types of kitchens are often referred to as “German Kitchens”. The INTEGRO range of cabinets give an ultra modern and sophisticated feel to any kitchen. The handle rail system is available in 6 different finishes, brushed aluminium, brushed copper, brushed brass, graphite, white and black.

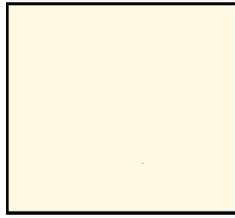

CABINET COLOURS

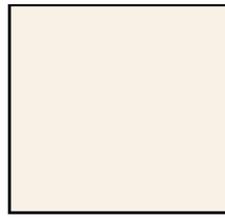

All our made to order cabinets can be manufactured using over 30 different colours. The colours below are some of our most popular options. You can choose the colour that best matches, or contrasts against any of our door ranges.
